

Part of a series of workshops by the  
Hicksville Public Schools Family & Community  
Engagement Initiative.

# Family & Community Engagement Workshop: S.T.O.P. then Send

Join us for our next workshop led by Brian Heid, Assistant District Attorney of Nassau County, as he presents this Cyberbullying program.

**This workshop will focus on ways to support your children in safely navigating the Internet and gaming within our ever-changing digital world to combat cyberbullying in their lives.**

Using computers, cell phones, gaming systems or other electronic devices to intentionally cause harm to someone else are all cyberbullying, and these actions can have real consequences including hurt feelings, depression, discipline and legal consequences. Parents and community members should join us to learn tips to stay safe online and ways to avoid cyberbullying.

**Date:** Thursday, October 7th, 2021

**Time:** 7pm
